FINANCIALS

2025 Financials

The 2025 financial statements reflect the consolidated financial position of The Greenlining Institute and Equity Works, a nonprofit entity established in 2015 to purchase Greenlining's headquarters and support the organization's long-term mission.

Despite the challenging funding environment in 2025, Greenlining remained financially stable and advanced our mission of driving equity-driven policies and solutions that expand economic opportunity and resilience for communities of color. As the organization enters a new chapter of leadership and strategic growth, it remains committed to continue strengthening the strong financial foundation to sustain its impact for years to come.
